

MEDIA RELEASE

THE CORPORATION OF THE CITY OF NELSON “Local Government Management Internship Program”

For Immediate Release:

NELSON (April 7, 2008) – The City of Nelson is pleased to be one of five municipalities in British Columbia chosen to participate in the first Local Government Management Internship Program. The Mayor and Council wholeheartedly endorse this initiative as it supports their commitment to enhance staff capacity and provides an outstanding opportunity to an intern to further develop knowledge and gain experience in our local government.

We are delighted to announce the appointment of Ed Chow to a one-year management internship position with the City of Nelson through our funding partners the Local Government Management Association of BC (LGMA), the Municipal Finance Authority (MFA) and the Ministry of Community Services. Mr. Chow will begin work June 9th, 2008.

Ed Chow will be graduating from the University of Victoria this year with a Masters of Public Administration. He currently holds a Masters of Business Administration as well as a BA in Economics.

“The City of Nelson is excited to be part of the internship program to develop future leaders in local government.” said City Manager Kevin Cormack. “I believe Ed Chow will be a valuable asset to the City of Nelson and I trust that Mr. Chow will be rewarded with varied and interesting projects throughout his internship.”
